TUFFBUOY is a complete line of buoys, floats, hardware and signage for regulation, mooring and marking. TUFFBUOY are constructed from ultra-high density, UV stabilized, polyethylene plastic resins. All buoys are filled with closed-cell foam for long term durability.

TUFFBUOY products are designed to satisfy all state and federal regulations and use used by the U.S. Army Corps of Engineers, U.S. Coast Guard, Dam Operators, State Parks and Recreation areas, Marina's and more.

TUFFBUOY products are available direct from Worthington or via your GSA or TXMAS purchasing programs.
